## COLORS & FINISHES RAL COLORS

VERNICI IN POLVERE, applicate per via elettrostatica sui particolari metallici e successivamente cotte in forno per indurirle e ottenere un film protettivo ed estremamente resistente.

*POWDER COATINGS are solid paints, applied by electrostatic guns on metallic objects and then baked into oven to harden them and to obtain a very resistant protective film.*

L'ASSENZA COMPLETA di solventi organici volatili riduce drasticamente le emissioni di solvente in atmosfera, contribuendo alla salvaguardia ambientale e alla sicurezza dell'ambiente di lavoro per la mancanza di sostanze infiammabili.

*THE COMPLETE ABSENCE of volatile organic compounds reduce drastically the emissions in atmosphere, helping in protection on environment and safety of working place, due to non existence of flammable substances.*
